Daniel P. Ruskin

ruskin@umd.edu danielruskin.github.io

Education

Ph.D. Student, University of Maryland Aug 2025 – Present
Information Studies

Bachelor of Science, Washington University in St. Louis Aug 2021 – May 2025
Computer Science | *Second Major: Systems Science & Engineering* | *Minor: History*

Research Interests

Data Science, Record Linkage, Digital History, Network Analysis

Journal Articles

1. Jung, W. J., Acharya, S., **Ruskin, D. P.**, Liao, S., Moghaddam, V. A., Erdenebaatar, Z., & Brent, M. R. (2026). METANet: A supervised ensemble learning framework for reconstructing direct and functional tissue-specific transcription factor networks. *Bioinformatics*, btag738.
2. **Ruskin, D.**, Rasul, R., & McCann-Pineo, M. (2022). Predictors of emergency department opioid use among adolescents and young adults. *Pediatric Emergency Care*, *38*(8), e1409–e1416.

Presentations

1. **Ruskin, D. P.** (2026). Identifying enslaved individuals in digital records and tracing their ancestry to today: A review of the literature. *Universities Studying Slavery Conference*. Paper Presentation.
2. **Ruskin, D. P.** (2026). Bridging community expertise and AI to identify enslaved people in archival records. *Center for Archival Futures Graduate Student Research Symposium*. Talk.
3. Jung, W.J., Acharya, S., **Ruskin, D. (presenter)**, Liao, S., Moghaddam, V.A., & Brent, M.R. (2024). Mapping transcription factor regulatory networks in human tissues using ensemble learning. *Midstates Consortium Undergraduate Research Symposium in the Physical Sciences, Mathematics and Computer Science*. Talk.
4. Jung, W.J., Acharya, S., **Ruskin, D. (presenter)**, Liao, S., Moghaddam, V.A., & Brent, M.R. (2024). Mapping transcription factor regulatory networks in human tissues using ensemble learning. *Undergraduate Research Symposium at Washington University in St. Louis*. Talk.

Teaching

Decision-Making for Information Science, University of Maryland Fall 2026
Teaching Assistant

Intro to Engineering Design, Washington University in St. Louis Spring 2023, Spring 2024
Assistant Instructor

Intro to Electrical & Systems Engineering, Washington University in St. Louis Fall 2022, Fall 2023
Peer Solving Team Leader

Previous Research/Professional Experience

The Brent Lab at Washington University in St. Louis Aug 2023 – Aug 2025
Research Assistant

Regeneron Pharmaceuticals Jun 2023 – Aug 2023
Molecular Profiling and Data Science Intern

The Feinstein Institutes for Medical Research at Northwell Health Apr 2020 – Jun 2021
High School Researcher

Awards

Dean's Fellowship Fall 2025
UMD College of Information

Research Excellence Award Apr 2025
WashU Department of Computer Science and Engineering

- One of three students in the 2025 graduating class selected for excellence in computer science research.

Senior Academic Excellence Award and Antoinette Frances Dames Award Apr 2025
WashU McKelvey School of Engineering

- One of 13 students in the 2025 graduating class with a 4.0 cumulative GPA.

Antoinette Frances Dames Award Apr 2023
WashU McKelvey School of Engineering

- One of 20 students with a 4.0 cumulative GPA after three semesters.
